

March 12, 2018

Dear Valued Customer,

We have selected the following company as the exclusive authorized distributor for the H2O Jet product in Europe, Russia and other post Soviet countries.

PTV, spol. s.r.o.  
Ceskoslovenske armady 23  
253 01 Hostivice  
Czech Republic

H2O Jet and PTV have enjoyed a working relationship for over the past 10 years. We have worked with PTV in developing stock on hand to serve their customer base with quick delivery. Add the PTV technical service capability and customers should be well taken care.

PTV has the rights to authorize their own Russian representatives to sell/service the products.

We do not have any other authorized H2O Jet distributor in Russia. The "new agent" that claims to offer H2O Jet product is not known by or supported by H2O Jet.

I hope this instills confidence that working with PTV is the correct choice for you, the end customer. We want you to be confident with the product and the supplier. PTV is one of the best distributors representing H2O Jet.

Respectfully,

A handwritten signature in blue ink, appearing to read "Hal Arnold", is positioned below the word "Respectfully,".

Hal Arnold  
President – H2O Jet, Inc.
